## EMBLEM Solvent Perfect Poster 150

### Description:

EMBLEM SOPEP is a especially developed paper for digital ink-jet printing. The excellent coating is printable with solvent, UVC and latex inks.

The main field of application for this paper is the production of posters and display advertisements for indoor applications because of the brilliant colour reproduction.

Solvent Perfect Poster has an excellent flatness.

### Processing:

The drying time depends on the amount of ink and the ink technology.

For outdoor-applications lamination is needed. Before lamination the prints have to be dried and fumigated completely otherwise there is a risk of getting bubbles between media and lamination film.

To avoid fingerprints the use of cotton-gloves is advisable.

### Application:

posters and display advertisements for indoor applications
