

PROMAMUG

MG-170MER

Optional Set of 3 heat resistances

MG-170MER

The PromaMug MG-170MER is a single station heat press designed for sublimation transfer on standard mug (Ø 8 to 9 diameter) and on other cylindrical items. Convenient, its horizontal resistance allows printing on bigger articles (bottles) while focusing on the marking. Its digital board allows an easy setting of the temperature (from 0°C to 250°C), the time (from 0 to 999 sec.) and the pressure. Compact and light, it is to be used for smaller production and perfect for market or little shops needs.

- 1 standard heat-resistance for mug : Ø 8,1 cm / H : 11,5 cm
- Optional Set of 3 heat resistances
Straight : Ø 7,2 cm / H : 11,5 cm
Conic : Ø Low 6,2 cm & Ø 9,3 cm / H : 12 cm
Conic : Ø Low 6,3 cm & Ø 8,6 cm / H : 16,1 cm

MG-5M

MG-5M

The PromaMug MG-5M is a manual heat press with 5 stations for standard mugs of 8-9 cm diameter or cylindrical items of similar sizes. Designed for the high-scale production at a minimum cost, it is equipped with 5 electronic boards managing each resistance at once and guaranteeing a homogeneous heating. A control button launches the count down on all the switched stations. This heat press can work at 1, 2... or 5 stations simultaneously. One big handle allows closing all the stations at once.

MG5-M
Large handle

	MG-170MER	MG5-M
Power	320 W	1,6 kW
Voltage	220 V	220 V
Amperage	1,3 A	6,5 A
Size (W x H x D)	32 x 25 x 29 cm	86,5 x 26 x 32 cm
Weight	5,1 kg	25 kg
Digital temperature	0° - 250° C	0° - 399° C
Automatic digital timer	With buzzer	
Guarantee	1 year guarantee return to workshop in its box
